A HENDRICKS parrot has just died that is known to have been twenty-five years old.

PADUCAH Republicans if anything are having more trouble in selecting a postmaster than those of Cloverport.

WILLIAM'S Post G. A. R. located at Manie, Ind., has adopted resolutions condemning joint reunions of the Blue and Gray.

It is known that President Harrison has selected the Democratic member of the Interstate Commerce Commission, and the belief is that Mr. Green, of Georgia, is the lucky man.

Vice-President Morton called at the White House the other day for the first time in several months. He probably called to get a snifter from the President's jug of fine old whiskey.

The police of Chicago have recently been having more trouble there with the anarchists. Some of the followers of Spies and Parsons held secret meetings in which they defied the officers of the law to interfere.

The State Farmers' Alliance, which was in session at Elizabethtown last week, elected the following officers: Hon. T. T. Gardner, President; J. G. Blair, vice-president; Miss Mattie Truick, Secretary and Treasurer. The next annual meeting is announced for Owensboro.

Hos. George W. Jolly it is said aspires to be a delegate to the next National Republican Convention from Western Kentucky. Mr. Jolly being an original Harrison man with an excellent popular man with his party in this part of the state, can have anything he wants this way without meeting with any formidable opposition.

An election is ordered to be held at Hartford, Ky., January 4, 1892, for the purpose of taking the sense of the people relative to the proposition to vote \$19,000 subscription to the capital stock of the Louisville, Hartford and Southern railroad. The promoters of the road do not stop to ask about the constitutionality of their action.

THAT was a high mark of official excellence reported on a deputy sheriff from Indiana. The deputy had in his charge a prisoner whom he was conveying to the state penitentiary to serve a term of two years. On the way the deputy and the prisoner both got drunk and the latter made his escape. If that sheriff doesn't get bounced from office and a short term in the pen himself, he won't get what he deserves.

If coin hunting counts for anything Mr. George Johnston, of Barren county, takes the cake. It is said of Mr. Johnston that while out coin hunting last week his dogs chased a coin up a large poplar tree. After day-light Mr. Johnston cut the tree and killed the coin. On the inside of the stump which was hollow he found a stone jar containing \$5,000 in gold coin and two gold watches. It was thought to have been placed there during the war by Bill McGrouder, the famous guerrilla.

Gov. Brown has fixed January 15, 1892 as the date for the hanging of John Lary, colored, for the killing of John Lary, at Paducah. One of the jury who tried and condemned Brown to death signed a petition asking the Governor to commute his sentence to life imprisonment. The Governor after a review of the case refused to do so and said he "human life has been in cheap in Kentucky." The Governor emphasizes that which is apparent to all of us. If our laws were more justly enforced and if we could get the juries as well as the officers to follow the strict letter of the law there would be less crime and blood shed in the state. Jurymen should not allow their sympathies to be played upon as is often attempted in the court room, but with an eye single to their sworn duty they should fearlessly meet out to every criminal the punishment which the law and facts warrant them in doing.

The usual dispute came up Monday over the allowance of \$4 as the established price for pauper's coffins. Some of the court wanted to pay \$6. The motion to allow the latter amount was lost.

Slipped and fell applied for license to sell whisky at Garfield. It will be heard in the County Court next Saturday.

There is likely to be a pretty lively fight over the granting of the license, as there is strong opposition to it from that place.

The following are a few claims allowed Monday: The claim of F. Payne of \$20.50 work on hill near Cloverport; J. T. F. Owen claim of \$72.25 work on new road across Rock Hill; W. V. Perkins \$3.50 lumber furnished on Beech Fork bridge; W. T. Mattingly claim of \$15 for lumber; R. M. Jolly \$51 work on new road.

The County Court of Claims met in regular annual session last Monday.

About the first thing they did was to inquire after the financial status of the county. The sheriff reported an indebtedness of \$10,000 with assets amounting to \$11,869. This indebtedness of course did not include the cost of the new jail and the new iron fence around the court house. The object of the court was to get a basis on which to act in making appropriations this term. The claims are likely to be large and the county will necessarily incur a larger indebtedness than common.

W. M. Ditto sold twenty-five head of fat cattle by telephone to parties in Louisville last Monday and delivered them the same afternoon.

The railroad and the telephone are of great benefit to the farmers if he will keep himself posted and use them at the right time.

Dr. John M. Hardin wishes the editor and readers of the News to know that "cuss" in Spanish would not work.

The oxen he bought had only an English education and had to resort to sulphuric expressions of which he says he has an extensive vocabulary stored away to use on such special occasions as driving in the English language. Then he got pulling down.

A warrant is out for the arrest of Bob Hardin for robbing the public school house down at Paynesville some time ago. Last Friday the sheriff went down there to arrest him. When they got in front of him he leaped a fence and showed them his heels. He ran like a quarter-horse and John Hardin was distanced in the first week across a twenty acre field. Fast Woodfolk judged and declared it was no run at all. Hardin never was in it from the very start.

There was quite an amusing and interesting little contest in the Court of Claims last week between the two Meade county papers as to which should get to print the proceedings of the court.

The Reporter's bill was three cents per line, while that of the News was "five cents per line, or five dollars less than my opponent." As five cents per line was not five dollars less than "my opponent" but in fact much higher, of course a paper that was looking out for the welfare of an already tax-ridden public were compelled to let "my opponent" have the job. As soon as the News man saw he was "not in it," he became a little "huffy" and said he was going to publish the proceedings of the court anyhow, even if he didn't get pay for it. The last proposition was reasonable enough, and had he set those figures at first he probably would have gotten the job. And even as it is now we don't suppose that at those figures and on those terms the court or the taxpayers would have any objections to his copying it from the Reporter next week. Of course it will be a couple of weeks old then, but that should make no material difference with the News.

The farmers' meeting over at Tolins-port last week was pronounced a splen-did success by all who attended from this side. They were royally and handsomely entertained. Hon. W. E. Minor was especially loud in his praise of the meet-ing and of a paper read by our cor-respondent.

The smallest editor, we mean in statu-tion of course, in the State of Indiana, called on us Saturday. His name is Mr. Schuetz and he runs the Telephone at Cannel-ton a new paper, and an excellent one too, just started there. He and Mr. Henning came over from the Farmers' Institute at Tolinsport.

Mr. Henning represents a Philadelphia com-pany, who propose to put in a system of water works at a cost of \$60,000, if the city will guarantee said company \$2,250 per year for 25 years. Sterrett, who is now the Washington correspondent of the Galveston Texas News. A few samples of tobacco were shown at Hardinsburg Monday. They were of splendid color but with scarcely any body, being light and chaffy. There were no sales and no bids. The crop is estimated at one-fourth of normal crop. Mr. B. F. Beard says, but for the shortness of the tobacco crop, this would have been one of the most prosperous years for the farmer he had known in many.

The farmers are all right any way said he, but nothing like what they would have been with a full crop.

Always use the medicine that will do the most good, and the Lightening Kidney and Liver Remedy is the best. Messrs. One of our customers has been suffering for years with kidney trouble, and has used a great deal of kidney and liver cure, but did not receive much, if any benefit. He finally tried Lightening Kidney & Liver Remedy, and will use nothing else. He says he would rather pay the price for it than to take the other for nothing." For sale by all dealers.
